Cogit Corporation and DIGITAL announce partnership to deliver the industry's first enterprise-class data-mining capability

"Both An American Werewolf in Paris and Spawn couldn't have been completed on time without the use of our DIGITAL AlphaServer RenderTower system."
-- Bruce Jones, Executive Producer at Santa Barbara Studios

RENDER TOWER

The AlphaServer 4100 system outperforms **all** other single-node systems, including x86 machines, in all three TPC-D measurements: power, throughput, and price/performance. (Details)

Internet Excellence

PC Magazine says "On our performance tests ... Netscape servers running under Digital Unix performed the best overall in testing that pushed the servers all the way to 2,000 hits per second." The complete article.
