Compaq ActiveAnswers™

Accelerating successful solutions for Lotus Domino™

activeAnswers™

Compaq ActiveAnswers is an innovative online resource for computing services and solutions. It enables solution providers and Compaq customers to access tools and methodologies to help them achieve greater success with enterprise solutions like Lotus Notes and Domino.

How will ActiveAnswers accelerate my time to solution?

Enterprise messaging and collaboration platforms like Lotus Domino are all about efficiency. They enable business teams to communicate and work together more effectively — wherever and whenever they need to.

Compaq ActiveAnswers is a set of web-enabled tools developed to assist you in planning, deploying and operating your environment. These enablers provide a broad range of information and proven methodologies for deploying a successful solution. By significantly reducing the time, resources and complexity associated with implementing a collaborative and messaging application, your business can reap the productivity rewards faster and with less risk.

How will ActiveAnswers make a difference to my Lotus Domino implementation?

Faster time-to-solution. Compaq ActiveAnswers puts Compaq's vast expertise and experience with Lotus Domino to work for you, reducing the time and resources necessary to test, debug and validate integration. As a training tool, ActiveAnswers facilitates quick knowledge transfer. Compaq

ActiveAnswers significantly reduces implementation time and eliminates costly guesswork — which means quicker returns on your investment.

Increased Confidence. The recommendations and best-practices found on ActiveAnswers have been configured, thoroughly tested and recommended by Compaq engineers. Compaq ActiveAnswers for Lotus Domino allows for easy replication and management of messaging and groupware solutions, simplified planning, deployment and operation, reduced risk and a lower total cost of ownership. Backed by ActiveAnswers, solution providers can move into Lotus Domino opportunities with increased confidence, and their customers are assured greater quality, reliability and faster success.

A clear path to the future. On ActiveAnswers, you can access a broad range of standards-based solutions and services, along with flexible migration and upgrade opportunities. And ActiveAnswers provides these solutions and services around the industry's broadest, most scalable, highest performing line of Intel and Alpha NT — servers for Lotus Domino.
