

Compaq And Microsoft Windows Media Training Server

Content And Technology In One Value-Packed Solution

Compaq and Microsoft have teamed up to offer you the latest product and technology information on a pre-configured, ready-to-go training server! We've started with a *Compaq ProLiant* server, added Microsoft® Windows NT® Server and Windows Media™ Services, and loaded the most popular training seminars from Microsoft and Compaq. It's network-ready, video-based training all in one box—so you can start offering the latest product and technology information to your organization!

Highlights

- ➔ Provides *instant access* to the latest product and technology information from Microsoft and Compaq
- ➔ *Extensible Architecture* which provides all the required technologies and services to deliver streaming media — at an attractive price
- ➔ A pre-configured, *out-of-the-box solution* that provides an easy way to distribute content over the network to everyone in the organization

Compaq ProLiant server with Microsoft Windows NT Server, Windows Media Services, and leading edge content!

Microsoft

Affordable, accessible, and flexible training solution

In-depth information on key technology

Pre-loaded server content includes approximately 100 of the most popular Microsoft training sessions with in-depth information on key technology topics such as the Windows® 2000 operating system and Microsoft SQL Server™ 7.0, Microsoft Office 2000 productivity software, and 50 of the most-requested Microsoft Seminar Online presentations. The product also includes sessions from the Microsoft Development Conference and Microsoft Advanced Web Development Seminars. Content from Compaq includes certification and product training and short informational video clips.

Decrease costs, improve processes, share knowledge

Microsoft's *Windows Media Technologies* provides a highly scalable end-to-end platform for creation, distribution and playback of high-impact digital media. Today's businesses are driven to find new ways to decrease costs, improve processes, and share knowledge across a widely dispersed audience. Windows Media Technologies provides essential support for achieving these goals by offering a comprehensive set of tools for implementing interactive corporate communications, cost-effective online training, and distance learning solutions.

Tested, easy-to-use system

Compaq has made a commitment to providing the premier video server platforms necessary for streaming media, based on the award-winning *ProLiant 800* server. Today, we are using our experience in video archiving and delivery so we can characterize and configure the best solution to meet your needs for delivering interactive media. With our ability to build solutions, our key partners, and our worldwide service and support organization, we're ready to deliver a tested, easy-to-use system. Today!

Get started now

Together, Microsoft and Compaq have put together the best solution for you to get instant access to the latest product and technology information you need, and to get a fast start with streaming media. Get started now with the all-in-one system based on *Compaq ProLiant* servers, the Microsoft Windows NT operating system, Windows Media Services, and the content our customers are asking for. And, because we've put it all together, it's an easy, low-risk solution for you to implement in your organization.
