Configure-to-Order PeopleSoft Solutions

Rapid deployment for federal agencies

ProLiant

Alpha

Windows NT

Tru64 UNIX

As your agency increasingly operates with a business orientation, key challenges include enhancing customer service, assuring quality, and fine-tuning analysis and reporting.

Turn to Compaq and PeopleSoft for help in meeting these business challenges.

We provide technical and functional resources along with powerful, scalable, and flexible computing platforms configured to your exact requirements.

Benefits

➡ Get down to business quickly with complete solutions on *Compaq AlphaServer* and *ProLiant* systems running *Tru64 UNIX* or Windows NT®

➡ Cut implementation time with factory-integrated solutions

➡ Focus on your core expertise while responding to rapid growth

Packaged in a space-saving cabinet like the one shown here, each platform contains 64-bit Alpha processors or ProLiant servers — or both! When it arrives at your site, the platform is ready to plug in, power up, and load your choice of PeopleSoft Financial, Supply Chain, or HRMS application software.

Accelerate the pace of deployment while reducing risk.

COMPAQ | **PEOPLE**Soft®

Extract maximum business impact from your implementation efforts.

Compaq delivers powerful platforms for PeopleSoft Enterprise Applications in flexible, scalable configurations built to your specifications. Work with Compaq and PeopleSoft professionals to architect and deploy the solution that best meets your needs.

Unmatched service and support

A PeopleSoft Alliance Partner, Compaq has helped over 600 customers extract maximum business impact from their implementation efforts. We have the know-how and experience to support the flexible and rapid integration of business processes and applications with a variety of consulting services including:

→ PeopleSoft implementation and customization

→ Application infrastructure

→ System and network infrastructure

We also offer unmatched support with:

→ 12 Enterprise Competence Centers worldwide

→ 550 locations in 114 countries

→ 30,000 services professionals

→ 30,000 channel partner service resources

Working with key partners, we cover the entire implementation process from planning and design through operational support and system management services. This includes 7 x 24 x 365 mission-critical coverage for uninterrupted business operations.

Single point of accountability

*Compaq Custom**Systems*** provides turn-key implementation projects for systems based on *Tru64 UNIX*, Windows NT, and mixed Windows NT and *Tru64 UNIX* environments. And we give you a technically knowledgeable, single point of accountability for your complex implementations.

Factory integration – no surprises

Let's face it, it's better to assemble and test complex solutions in a controlled environment where problems can be quickly identified and easily remedied. That's why we build your *Configure-to-Order* PeopleSoft solution in our ISO 9001 certified manufacturing facility.

Delivered fully assembled and tested

Factory-integrated, tested, and shipped in space-saving cabinet configurations, the solution arrives at your site fully assembled and ready for you to load your choice of PeopleSoft applications. Optionally, we can factory load and test the PeopleSoft applications.

The right tools for the job

As you strive to move your Federal agency to a higher level of performance and efficiency, your staff is your most important resource. But you must give them the tools to do the job. That's where *Compaq BusinessBus* for PeopleSoft comes in.

This remarkable tool set for organizational productivity enables your staff to support dynamic application integration with existing applications as well as with newly created client/server distributed services.
