

# Factory-integrated and tested shipped-in-the-cab solutions from *Custom*Systems

## Going Beyond the Standard

Whether you are in Communications or Manufacturing, Government or Healthcare, you probably face a host of IT problems demanding solutions that go beyond standard configurations.

You might need proof of concept and solutions modeling before you invest millions in an enterprise-wide application-specific platform.

Or you might have business-critical installation deadlines — nights, weekends, holidays.

Wouldn't it be great if you could go to one source for the answers to all your complex, enterprise-scale problems?

### You can with Compaq *Custom*Systems.

From tightly focused project work to wide-ranging global deployments, we've got the tools and talent to deliver the solutions you need *precisely the way you want them!*

**Roll it in.  
Plug it in.  
Start working.**

## What can *Custom*Systems do for you?

Reduce the risk of complexity and increase the speed of deployment with Factory Integration and Complex Configurations/Services.

### Factory Integration

- Built to customer specifications
- Compaq, third-party, or customer-supplied options factory assembled and tested
- Shipped fully integrated

### Complex configurations/services

- Factory staging
- Operating systems, databases, and layered products loaded and configured
- RAID configuration set-up
- Business-critical delivery and installation
- Custom configuration documentation
- Technical project management
- Proof of concept and solutions modeling

# Roll it in. Plug it in. Start working.

*Pictured below is a sample configuration of a ProLiant and AlphaServer system. The cabinet shown could just as easily contain an NT cluster or several ProLiant systems serving as the foundation for an Oracle<sup>8</sup>™ data warehouse or a high-availability SAP™ solution.*
