Solutions

The Internet is moving faster than the speed of light.

And you need to stay ahead of it. Count on Compaq.

Internet Service Providers (ISPs) are at the front line of the Internet revolution. You're expected to deliver the best the Internet has to offer, from faster response times to high scalability to uninterrupted availability.

Compaq is your partner to help you win.

Freedom of Choice: Solutions for the 21st Century ISP.

Only Compaq offers the combination of:

- High-performance servers
- Industry-leading storage platforms
- Tested support for multiple operating systems and applications.

The addition of Internet tools and guides on *Compaq ActiveAnswers* and mission-critical global support services help you make it all work. Whether you're providing mail to an exploding subscriber base, hosting E-Commerce websites, or deploying complex global applications, Compaq has the *NonStop*® eBusiness solutions you need.

freedom

ahead

NT, UNIX, Linux—you have the best of all worlds.

Need OS and platform choices?

Compaq offers a variety of robust standards-based platforms along with supporting solutions and services based on open source and commercial grade software to meet your needs. In fact, 75 percent of leading ISPs have standardized on Compaq systems for NT-based services such as website hosting, E-Commerce and Virtual Private Networks (VPN). Many ISPs have also selected Compaq's cutting-edge solutions, servers and services for *Compaq Tru64 UNIX* and open source Linux environments. Only Compaq offers you the best in every category. Only Compaq has the ability to handle the interoperability demanded by ISPs with mixed environments.

Compaq also offers the server choices you need, with a full line of servers and storage solutions designed specifically for the 7x24 datacenter. Rack-optimized, high-density systems like the *Compaq ProLiant* server and *Compaq AlphaServer* pack incredible performance into minimal space.

Increase your business efficiency and your profitability with *Compaq ActiveAnswers.*

To simplify planning, deployment and operation of Internet and E-Commerce solutions, there's no better resource than *Compaq ActiveAnswers*™. A unique online resource, *ActiveAnswers*, is packed with proven tools and services to help size, configure, install and support your solutions for companies and applications such as Microsoft; Netscape; Allaire; Linux; Apache and Send Mail—faster and with less risk. It's all at your fingertips at: www.compaq.com/activeanswers

FPO businesscard holder

[1] In Business ISP Evolution (May 1997), based on Forrester's listing of eight companies identified as "strong" players in simple and/or complex web hosting.

Your customers expect a lot from you; here's what you can expect from Compaq:

Tested Solutions.

- Speed and simplified planning, deploying and operating solutions with Compaq tools that make a difference
- Make decisions quickly and easily with best-of-breed software selected, sized, configured and integrated for you by Compaq
- Enhance your capabilities without adding headcount or resources with Compaq global services to help you plan, deploy and manage solutions

Continuous availability.

- Intelligently predict and prevent downtime with Compaq reliability and manageability features
- Replace hard drives, power supplies, NICs, controllers and PCI cards on the fly, transparently to users, with highly-redundant technologies combined with hot-plug components
- Replace select server components before they ever fail—with our unique Pre-Failure Warranty
- Implement mission critical Internet-enabled applications across your enterprise with Compaq Distributed Internet Server Array (DISA) Architecture

Investment protection.

- Grow with your customers' requirements with Compaq solutions that are scalable, upgradable and expandable
- Obtain the benefits of NT and UNIX with synergy in management and development across both platforms with *Compaq Tru64 UNIX*
- Gain outstanding results and lower total costs with leading price/performance from Compaq technology
- Integrate seamlessly with legacy systems, protecting your current technology assets with standards-based Compaq solutions

More performance per square inch.

- Whether you need Intel-based *Compaq ProLiant* servers or RISC-based *Compaq AlphaServers*, Compaq sets the pace for server density with a full line of powerful, compact and easy-to-service rack-mount servers that make the most of expensive datacenter space
- Only Compaq offers you a 3U server with hot-plug drives and power supplies as well as support for RAID 5
- Use your costly datacenter space more efficiently with a choice of storage solutions and rack mount accessories from Compaq

Performance

You need to stay out in front.
Compaq makes it simple.
