
Client 32 for Windows95 and NFS Gateway 1.2 (Last modified: 16OCT1997)

This document (2912064) is provided subject to the disclaimer at the end of this document.

Symptom

In Windows95 Explorer or Dos Session, all files are not displayed.
We duplicated this in house with a NetWare v3.12 and NFS v1.2 the NFS Gateway volume is a AIX Host directory. We verified that with Dos/VLMs we could see all files.

Solution

nmsgw.exe available from Novell Technical support
