***Before You Install the Compaq TeMIP Client V4.2 for Windows NT®***

Dear Customer,

Compaq is delighted that you have chosen the Compaq TeMIP Client V4.2 for Windows NT to satisfy your network management requirements. The Compaq TeMIP Client V4.2 kit contains three components; Compaq TeMIP Alarm Handling, Compaq TeMIP Access Library (TAL) and the Compaq TeMIP Access Library Toolkit.

Compaq TeMIP Alarm Handling is part of the TeMIP program and intended to allow Network Management to move into multi-vendor environments, where the need to provide alarm handling functionality through Presentation Applications grows ever larger. Compaq TeMIP Alarm Handling collects and analyses problem information generated by the elements in a Network Management system. To present this information efficiently and accurately, a purpose-designed Graphical User Interface (GUI) has been developed..

Compaq TeMIP Alarm Handling has been developed and integrated using the Client/Server version of the TeMIP Access Library Toolkit, which allows a remote PC client GUI to access TeMIP services through a distributed Client/Server system, running under the Windows NT Operating System. The TAL Toolkit is also available for customers who want to develop their own applications.

Enclosed is the Compaq TeMIP Client V4.2 for Windows NT software kit and documentation.

Please read this cover letter before installing any of the components in the kit.

**Contents of the Software Kit**

Your kit includes the Compaq TeMIP Client V4.2 software distribution media, together with the documentation set in HTML format. The documentation set consists of:

- Compaq TeMIP Client for Windows NT Installation and Configuration Guide
- Compaq TeMIP Client for Windows NT User's Guide
- Compaq TeMIP Alarm Handling for Windows NT SPD 70.64.02
- Compaq TeMIP Access Library Reference Guide
- Compaq TeMIP Access Library Development Guide
- Compaq TeMIP Access Library SPD 70.67.02

The documentation set corresponds with the functions that you have purchased.

Note that you will only be able to use the software for which you have purchased licenses.

## Release Notes

Release Notes can be printed out during installation. The Release Notes contain information such as recommendations, amendments to documentation and restrictions.

Refer to the *Compaq TeMIP Client Installation and Configuration Guide* (AA-REG1C-TE) for information on how to access the Release Notes.

Refer to the Software Product Description and *Compaq TeMIP Client Installation and Configuration Guide* (AA-REG1C-TE) for information on the prerequisite software and hardware.

## License Keys

This product uses the FLEXIm Software License Key system.

A FLEXIm key must be obtained using information provided with the license deliverable. An Authorization ID is provided for each license, which allows the user to generate license keys from the Compaq License Key Fulfilment Web Site according to instructions provided with the license agreement.

If you need to speak to a Compaq representative on the subject of license keys, call this US number (1) 603-884-8998 or send an Email or Fax to:

Email: [pakman@compaq.com](mailto:pakman@compaq.com)

Fax: (1) 603-884-1297

Or if you are in Europe, call this number +353-91-754524 in Ireland or send an Email or Fax to:

Email: [europak@compaq.com](mailto:europak@compaq.com)

Fax: +353-91-754500

When you receive the Software License File, refer to the *Compaq TeMIP Client Installation and Configuration Guide* (AA-REG1C-TE).
